#### WASHING WON'T RID HEAD OF DANDRUFF

Dissolve It, That's Best Way

The only sure way to get rid of candruff is to dimolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arron, apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the fingel

and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruft will be gone, and three or four more applications will completely dessolve and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and teel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arron at any drug store. It is inexpensive and never fails to do the work.—Advertisement,

The Public Has a Right to Know all about every article of food it is asked to buy. More especially MILK and MILK PRODUCTS, for no food is more easily contaminated and rendered unfit for food than milk. THE PUBLIC HAS A RIGHT TO KNOW

that the dairy supplying it with MILK is a CLEAN DAIRY—that it is operated by people who love good cows and take a keen personal interest in every detail, and who are just as desirous to deliver to their customers good MILK as they are to get it on their own tables.

THE PUBLIC HAS A RIGHT TO KNOW that the cows are healthy—that they are cleaned daily—that the manure is hauled out and not allowed to accumulate in the corrals—that the MILK is kept covered from files and dust until it is carried into the creamery—that it is at once refrigerated (not just cooled) and bottled by a clean machine, not dirty hands—that the bottles are previously sterilized with boiling water and again with steam—that the bottled milk is covered with crushed ice until delivered to you. THE PUBLIC HAS A RIGHT TO KNOW

That there is a dairy that does all these things and many more to insure you good, clear milk. THE PUBLIC HAS A RIGHT TO KNOW That this dairy also supplies CERTIFIED MILK for your bubles and sick
